Comment:

"Iromoyo Chotto Karimame" is a part of "Kesakakematsu Narita-no-Riken". It is famous for its supernatural scene, intervened with graceful performances of the characters. The beautiful Kasane changes into a grotesque figure at its climax, which was a forte of the late Baiko, whose model is followed today. Beauty and weirdness are the theme of this dancing drama. The late Uzaemon hit a great success in playing the part of Yoemon. Actors today immitate his model.
